**Subject:** Sound System

Tim and Yanya,

Want to again thank you for the great sound system. Every band commented on how great the sound was. Jay and Drew were outstanding and I noticed several times that the 'communication' between them and the bands during the act was super and adjustments were being made on the fly at the bands requests with the nod of a head. We even had numerous comments from event goers and how great the sound was. The Friday band, Charley O, told me right after the initial set up that the sound blew them away, Charley said he could 'feel the bass' right through the stage. They wound up playing significantly longer than we had contracted for since they didn't seem to leave the stage. Super stuff and definitely raised the bar in terms of the quality of product. Just wanted to let you know your work was both noticed and appreciated. Thanks!!!
